## About BET

Described as 'one of the most promising sponsors in the South East' by South East and South London Regional Schools Commissioner, Bohunt Education Trust (BET) is an ambitious, innovative academy trust, with the values of enjoy, respect, achieve at our core.

We hold the highest expectation and aspiration for our pupils and staff. We believe education should be enjoyable. We are passionate about learning and our position as a through-school multi-academy trust (MAT). We are determined that there should be no ceiling to pupil experience or outcome.

We believe an all-through school approach for BET is the right direction for our dynamic Trust. With five schools currently within the group, and a Sixth Form opening in 2017 at the high achieving and TES School of the Year Bohunt School, Liphook, we are actively looking for primaries to become part of BET and become partners in our educational innovative vision as we extend BET's provision to this important phase of education.

Our senior leaders have a rich experience in primary and secondary school improvement, having supported and worked with schools in a wide variety of contexts, particularly those in areas of deprivation and in challenging circumstances.

## BET and Primary Schools

We currently offer primary schools across the South East a plethora of support including:

- Learning and Teaching support
- Year 5 experience days
- Sports Leaders courses
- Forest School
- Outdoor Education specialism
- Key Stage One only sports
- Grants for peer to peer coaching
- Recruitment opportunities through TESLA

We are immensely proud of our Teaching School Alliance (TESLA) TSA – an alliance between primary schools and Bohunt School, Liphook - which includes (and is co-chaired by) a National leader of Education for Primary. TESLA offers primary schools a wealth of opportunity, including recruitment. An example of TESLA's commitment is its work with schools in the primary phase through our 'Early Years School Readiness' project, a funding grant TESLA uses to enable schools and early years providers in the local area to work together to deliver

quality early years provision and create the infrastructure locally to support this in a sustainable way.

The project supports smooth transition from early years to reception by promoting positive relationships and information sharing between schools in the area and feeder childcare providers. In addition, TESLA runs a bespoke ITT, NQT, RQT and CPD suite of programmes across the primary sector. So far, eight primary schools have been supported by TESLA in their School Improvement journeys, with Ofsted improvement impact.

## Why Join BET?

We understand the decision to change to academy status and which academy trust to join is an incredibly important one, which requires careful thought and research. We will be with you every step of the way. We have a proven track record in improving and supporting schools in every aspect of conversion, from HR to IT. With practical and experienced consultants within its senior leadership, BET strives to transform how education is delivered across the country, from early years to higher education. **We truly believe we are stronger together.**

BET schools and academies share the following characteristics:

- An absolute commitment to the values of enjoy, respect, achieve
- Relentless optimism for young people
- A commitment to education beyond the classroom
- Passion for innovation and doing things differently

By joining BET, you will be freed to focus on what really makes a difference, improving learning & teaching. As part of the partnership fee, BET provides a full back office service including:

- Full finance function
- HR support
- Managed IT solution
- Marketing support and advice
- School improvement services
- Bespoke services as required (for example policy development and project management)

**Through the highest quality of leadership and senior leaders with a wealth of experience in secondary and primary sectors, together with a strong emphasis on learning beyond the classroom, we believe BET's offering as a MAT for your primary school is second to none and would love you to join us.**

If you would like to arrange a time for us to visit your primary school to discuss joining BET, please contact Polly Sharpe, Director of Comms./EA to Bohunt Education Trust by emailing [psharpe@bohunt.hants.sch.uk](mailto:psharpe@bohunt.hants.sch.uk)
