How Government uses your data

The pupil data that we lawfully share with the DfE through data collections:

- underpins school funding, which is calculated based upon the numbers of children and their characteristics in each school.
- informs 'short term' education policy monitoring and school accountability and intervention (for example, school GCSE results or Pupil Progress measures).
- supports 'longer term' research and monitoring of educational policy (for example how certain subject choices go on to affect education or earnings beyond school)

Data collection requirements

To find out more about the data collection requirements placed on us by the Department for Education (for example; via the school census) go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>

Much of the data about pupils in England goes on to be held in the National Pupil Database (NPD).

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the department.

It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

To find out more about the NPD, go to

<https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>
